Additional technologies: React, Next.js, Tailwind CSS, Supabase, Firebase and SQL. **Tools:** Git, GitHub, Visual Studio Code, GitHub Copilot and ChatGPT.

PROJECTS

THE BOX — Personal Songwriting Web Application

A personal learning project exploring web development through a tool for organising songwriting and lyrics. Built with HTML, CSS and JavaScript; integrates Firebase services, browser storage and an external API. Guided implementation, tested functionality and troubleshot issues with AI-assisted tools.

My Portfolio — Personal Portfolio Website

A personal website showcasing projects, skills and development progress. Built with Next.js, TypeScript and Tailwind CSS, with Supabase for backend functionality and data management.

ReviewALL — Multi-Category Review Platform

Currently in planning and design. A concept for a centralised platform for reviews of movies, games, music and other entertainment: “For the reviewer, by the reviewer.”

DEVELOPMENT APPROACH

Self-directed project development, version control and repository management with Git and GitHub; AI-assisted coding and problem-solving; testing, debugging and iterative improvement.
